

Gardeners for Regional Organic Wellbeing 2020 Membership Application

P.O. Box 1433
 Bonners Ferry, ID 83805-1433
<http://growboundarycounty.org>
 Facebook: Grow Boundary County

The purpose of Gardeners for Regional Organic Wellbeing, or GROW!, is to support and expand the local food system while encouraging sustainable agricultural methods in Boundary County. We strive to enhance the availability of local healthy food to our community by providing the opportunity to grow organic food in a community garden and by distributing organic produce to local community groups.

Our many projects working toward this goal include:

- Providing free organic produce to community groups, averaging 2600 lb per year
- Raised bed garden plots located on the grounds of Trinity Lutheran Church available for rent at the nominal fee of \$25 per year
- Little Free Gardens located throughout the community, providing garden education and free produce to the community
- An annual Farm to Table Fundraising dinner, highlighting local producers throughout the county
- A monthly community potluck and speaker series held in the winter months

This is my application for membership to G.R.O.W., an organization dedicated to providing organically managed garden plots in a community garden setting for residents of Boundary County, Idaho who otherwise would be unable to garden. I agree with the principles of organic gardening and agree to work toward the success of the community garden within those principles.

I agree to abide by the rules and bylaws of the organization and understand my application is contingent on acceptance by the governing board of G.R.O.W.

Annual Membership Fee: Individual \$20.00 Family \$35.00 Business Supporter \$50.00
 Business Partner \$100.00
